WORKSHEET B

Making mixtures: Solids and liquids

Your teacher will provide you with materials to make different mixtures. Follow the instructions below and answer the questions that follow.

1. Mix the following ingredients together in the container provided –
   - 5 tablespoons of sand
   - half cup of water

1.1. Can you still see the individual sand grains?

1.2. Draw and label a picture of the mixture of sand and water in your exercise book.

1.3. Can you separate the mixture into a pile of sand grains and water? How do you think you could separate this mixture?

2. Mix the following ingredients together in the container provided –
   - 1 teaspoon of curry powder
   - half cup of water

2.1. Can you still see the individual grains of curry?

2.2. Draw and label a picture of the mixture of the curry powder and water in your exercise book.

2.3. Can you separate the mixture into a pile of curry powder and water? How do you think you could separate this mixture?
